Colemanites Reunion Very Successful Affair

Hailstorms, heavy rains and an electric storm did not mar the enjoyment of about 200 former Coleman residents who travelled from all over Alberta and British Columbia to attend a reunion week-end held here July 9-11.

Registrations handled by the Coleman Senior Citizens' Organization poured in all day Friday and Saturday. On Friday evening a cash prize bingo was held in the arena with the \$100 cash prize being won by Mrs. Res. Pinel of Blairmore.

After the bingo close to 100 gathered at the Elks hall where a get-together was held with coffee and doughnuts being served by the Legion.

Saturday afternoon fairly decent weather favored a tour of the new Horace Allen high school, the Phillips Cable Plant, Saratoga Gas Processing plant and the Jefferson Lake Sulphur plant. This enjoyable event was sponsored by the Masonic Lodge and buses were provided by Coleman Collieries.

A banquet was held in the evening in the arena where approximately 500 persons gathered for the banquet prepared by Coleman Ladies' organizations.

During this event Mayor John Holyk welcomed all former Colemanites and then called upon Mrs. L. Snyder of Vancouver and presented her with a golden key to Coleman. A second key had been prepared for presentation to Mrs. J. Kapalka also from the coast, who was unable to attend.

Mr. Mrs. Albin Panek Celebrate Silver Wedding Date

Mr. and Mrs. Albin Panek, well known Coleman couple, were honored on the occasion of their silver wedding anniversary July 3rd, when 200 of their friends and relatives gathered in the Elks hall to mark the event.

The couple were escorted to the head table which was centered by a large three-tiered colorfully decorated cake, a gift to the couple from Mr. Panek's sister Adele.

Mr. and Mrs. Panek were jointly called upon and were presented with a gift of a purse of money by Mrs. L. Anne Vasek, on behalf of the large gathering. The couple ably expressed their appreciation.

Mr. and Mrs. Panek were married in the Holy Ghost Catholic Church on July 6, 1940, by the late Rev. Dunbar. They have resided here since, where Mr. Panek is employed as a miner at the Coleman Collieries Viceroy Creek mine. They have two daughters, Geraldine and Rozanne, and one son, Leslie.

Guests were present at the 25th anniversary from Calgary, Claresholm, Pincher Creek, Ladysmith, Natal and Fernie, B. C., as well as from all the Pass towns.

Mr. Dutil ably expressed his and his wife's appreciation for the recognition and stated that they regretted leaving the Pass.

their many years in Coleman.

Forest Fire Damage Lower

Forest fire damage throughout Canada during May was much lower than in the same month of 1964, Department of Forestry of Canada estimates indicate.

Some 50,000 acres were hit last month by 1965 fires, compared to 119,000 acres damaged by 1862 fires in May, 1964. In April this year 267 fires damaged an estimated 4,000 acres.

The May, 1965, estimates include 25 fires in the Yukon and Northwest Territories, involving some 510 acres, compared with 10 fires affecting two acres in the territories in May last year.

The seasonal total to the end of May, 1965, is well below that of 1964—an estimated 54,000 acres in 1959 fires, against 139,000 acres in 2439 fires for the same period last year.

The Show Window of the South

The Lethbridge and District Exhibition will be held July 19th to 24th. The Fair will be for a full week again as the Board of Directors feel that with six days, it has achieved two goals--1st, to carry out a full livestock program without crowding accommodations or doubling up on judging in the show ring. 2nd, it has enabled the Board to present 3 complete free attractions in front of the grandstand.

The "No Pass" Gate Policy will prevail for the fourth year as this has proven very successful with the general public. The following is the admission charge for the Gates:
Under 7 years of age, Free.
7 to 14 years of age, 50c.
15 years of age and over \$1.
Grandstand: Afternoon and evening events, Free Admission. This policy applies to both the Stage Show on Monday to Thursday and Rodeo on Wednesday and Thursday afternoon and Friday and Saturday Nights.

Reserved Seats: A limited number of reserved seats for the evening grandstand at a price of \$1.00 are available. This is to enable the general public who may wish to require reserved seats to purchase a seat in advance for either a specific night or all six nights.

Changes In Our Traffic Laws

The RCMP advise that: There has been several changes to the Vehicles and Highway Traffic Act of Alberta (which is one of Alberta's Traffic Acts) that come into effect on July 1st, 1965. The following are some of the changes that will be of interest to a motor vehicle driver or owner:

An operator's licence will not be issued to a person under the age of 18 unless the application is signed by a parent or guardian, or the person is self-supporting, or is married. If it is later found that these stipulations are false, the Minister will cancel any licence that had been issued. When a trailer is being towed, two rear view mirrors are required—one to be attached to each side of the towing vehicle to afford the driver a clear view of the roadway to the rear and to each side of the trailer.

When necessary to carry out their duties a fireman may drive and park a motor vehicle contrary to any rule of the road providing it is safe to do so.

A new provision has been added prohibiting the opening of the door of a motor vehicle on either side where there is traffic passing, or leave a door open unless it is reasonably safe to do so.

Many municipal by-laws prohibited backing a vehicle into a traffic lane unless the movement can be done in safety, which usually applies to diagonal parking. This provision is now included in the V.H.T. Act, so it will apply to cities, towns and villages, regardless of any by-law.

The provisions requiring vehicles carrying passengers, explosives, or inflammable liquids, to stop at a railway crossing now applies not only on the highways

but in towns and villages.

Anyone under the age of 16 years shall not ride on or operate a scooter or power bicycle unless they are wearing a safety helmet. This is a new provision and also good advice for any age.

Keep Your Head And Toes (NSL)

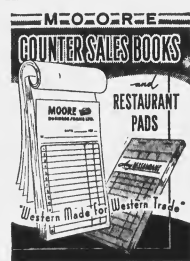

Injuries from power mowers are becoming a major problem in Canada, according to Gay McLaren, general manager of the National Safety League of Canada.

Because few of them are fatal and most go unreported, no reliable statistics are available, but spot surveys have shown that hundreds of severe injuries to hands and feet occur every year because mower owners ignore simple safety rules.

Mr. McLaren suggested:

Before mowing, check the grass for debris that could become a dangerous missile if hurled by the blades. Warn bystanders away so flying twigs and stones will not harm them. Wear heavy shoes to protect toes. Keep in step with the mower's progress so complete control may be maintained. Cut hilly areas and banks from side to side, not up and down. Shut off the motor before making any adjustments. Never allow children to operate a power mower.

"Keep it helpful, not harmful," Mr. McLaren said.

In Memoriam

In Loving Memory of Our Dear Mother, Mother-in-law and Grandmother, Carmela Ferrara, Who Passed Away July 2nd, 1967.

Three sad and lonely years have passed Since our great sorrow fell. The shock that we received that day No one can ever tell.

God gave us strength to meet it And courage to bear the blow, But what it meant to lose you No one will ever know.

It's lonely here without you, Mom; We miss you more each day. For life is not the same to us Since you were called away.

You bade no one a last farewell, Nor even said good-bye. You were gone before we knew it. And only God knows why.

It broke our hearts to lose you. But you did not go alone. For part of us went with you. The day God called you home. Sadly Missed by Daughters, Sons and Families.

What is mental illness? Well, for one thing, it's our most serious health problem, hospitalizing more people than all others combined. YOU can learn more about disorders of the mind—what they are and how to deal with them—in a free pamphlet entitled "What Is Mental Illness?" from the Canadian Mental Health Association, 618 Revillon Building, Edmonton.

Tree Planting Centennial Program For 1966

Alberta school children in grades 6, 8 and 10 will spearhead a Centennial tree-planting program in 1966 and 1967, which will result in thousands of trees being planted in every area of the province. This program will help to beautify Alberta, and at the same time establish live Centennial projects or monuments which will extend well into the future.

The trees, which will be provided by the Department of Agriculture, will include Northwest and other popular species, Manchurian or American Elm, Green Ash, Manitoba Maple, White or Colorado Spruce, Laurel and other Willow, Caragana or other species for habitat areas. In addition, one Centennial Rosebloom Crabapple tree will be available for each school, to commemorate the occasion in a planting ceremony.

The Departments of Agriculture, Education and Lands and Forests are jointly promoting and assuming responsibility for this project, with District Agriculturists, School Superintendents and Forestry personnel assisting in developing the project, providing technical information on land preparation, planting and care of the trees.

School Boards or School Committees in both rural and urban School Divisions will be responsible for initiating the project.

However, local organizations interested in planting trees under this program may also do so provided this is acceptable to, and sponsored by the School Division.

Applications must be submitted by School Boards or School Committees to the office of the District Agriculturist, and completed forms must be signed by all organizations participating, and must indicate the responsibility of each.

Trees may be planted on public lands including school grounds, provincial, city, town or other public parks, picnic parks and campsites, bird habitat areas or other multiple use areas, for purposes of recreation, conservation and beautification.

Since trees will only grow if properly planted and cared for, applications will be approved provided the planting site is well prepared, and if there is assurance that the trees will be given the necessary care and attention in future years.

Participating organizations will be required to prepare the land for planting and provide for continued cultivation of the planted areas until the trees are fully established. This means that a tractor or other necessary equipment

must be available for the purpose. All correspondence relating to the Centennial Tree Planting Program should be directed to the Supervisor of Horticulture, P. D. McCalla, Department of Agriculture, Legislative Building, Edmonton, Alberta.
